How to get EU Finance

Finance your projects with Funds from the European Union

Apply for EU Finance in 3 easy steps

Simple access to EU Finance

The European Union supports entrepreneurs and businesses with a wide range of EU programmes providing financing through local financial institutions. Every year the EU supports more than 200,000 businesses.

How it works

The **decision** to provide EU financing will be **made by the local financial institution** such as banks, guarantee societies or equity investors. Thanks to the EU support the local financial institutions can provide additional financing to businesses.

The exact financing conditions – the amount, duration, interest rates and fees – are determined by these financial institutions. **Contact one of over 1,000 financial institutions** to find out more.

Your right for credit feedback

You have a right to get feedback from credit institutions on their credit decision. This can help you understand your financial position and improve your chances to obtain financing in the future. Use your right and refer to Article 431 of the EU Capital Requirements Regulation 2013.*

How can I get direct EU grants?

EU provides also grants aimed at specific policy objectives like research or education. Some of these can be relevant for businesses. All grants are accessed through **calls for proposals** at specified times. More information: www.access2finance.eu
